

The Great Basin Chapter of the Air and Waste Management Association is excited to extend an invitation for this year's Annual Dinner. The Annual Dinner is our opportunity to connect as professionals, highlight our ongoing events, and recognize our annual scholarship winners.

Our keynote speaker, Kevin Perry, Professor of Atmospheric Sciences at the University of Utah, will be speaking on options and costs for dust control measures for the Great Salt Lake. Dr. Perry's research focuses on air quality, dust emissions, and environmental systems in the Intermountain West.

We're also excited to announce that food this year will be provided by WasteLess's Rescue-to-Table program. Wasteless is a local non-profit that transforms high-quality rescued food into nourishing, thoughtfully prepared meals.

We hope you can join us!

Who: A&WMA members and friends

Where: Second + State (First Floor)
215 South State Street
SLC, UT 84111

When: October 20th, 2026 at 6:00 pm
